A visit to the controctor's plant on 6 October 1969 revealed that very little has been accomplished on the processor sodifications. However, the Tachnical Monitor was assured that the processor would be completed by March 1969, and quite possible by January 1969.

LJ UNCLASS IF IED

At a meeting held at OL/PD/XCPO on 18 July 1968 between the Contracting Officer, the Technical Monitor and Contractor representatives it was decided by the Contractor to re-initiate the work under Phase II of the contract. A list of specific problems with the Processor was drawn up and submitted to the Contractor both informally as the teeting followed by a formal submission by the Contracting Officer. The Contractor has since submitted by latter a program designed to complete the processor to our satisfaction. Completion of Phase II is none determined to be 1 March 1969.

ANNO 15 PER 1995 - 2002/06/17: CIA-RDH 18 15/04/74/7A00240006 10025 15/1

Reference Report #15 - The contracting officer submitted the requested letter to the contractor. A reply has been received stating generally that they felt the instrument was impractical and that a current state of the art breakthru could not be made.

Accordingly, the Project officer and the contracting officer are going to most with the contractor to determine what recourse is open and/or what practical settlement can be made.

Approved For Release 2002/06/17 : CIA-RDP78B04747A002400060020-8

Phase I of this contract has been completed and the report of accomplishments under Phase I is in hand for evaluation. It is intended to give the contractor concurrence for initiation of Phase II shortly. A recommendation for an additional four months for completion from the contractor is on hand, making the completion date 30 December 1966. Refer to inspection report #2 for reasons for this extension.

Approved For Release 2002/06/17 : CIA-RDP78B64747460020060020-8

narkāti i	E REPORT	02/00/11/10/	- LINIERIM.	7,7002400944	MAIO-O	
Contract was to be completed through Phase I by 1 March 1966. The contract monitor plans a visit to the contractors during the week of 14 March to ascertain progress to date.						25
There has been only one progress report submitted by the contractor, dated 14 September 1965, which was very limited as to funding information-simply stating that had been expended or committed to date.
